Their Own Story: Literature for African-American Children

**Jeanna McGlinn, University of North Carolina at Asheville**

**Publication Date**
2-1-1994

**Abstract**
The literature that African-American children read has the power to transform their vision of themselves and their culture. According to a report issued by the National Black Child Development Institute (1991), "Children's books that present accurate and realistic images of Black people and our culture are a major vehicle for generating high self-esteem and a positive self-concept in Black children" (p. 5).
