Dissecting the Origins of Air-Centric Special Operations Theory.

Author(s): Charles, Patrick J.

Abstract: This article reexamines the intellectual origins, development, and operational execution of air-centric special operations theory during World War II. For over half a century, historians have offered conflicting narratives as to the origins, development, and execution of air-centric special operations theory. In light of newly uncovered historical evidence, this article concludes that each of the conflicting narratives falls significantly short of what the evidentiary record informs.
