In lieu of an abstract, here is a brief excerpt of the content:

The day has arrived for the art comic, with respectable attention in the review columns of slick magazines and (possibly more important) the appearance of a regular comic page in the New York Times Magazine. More than a handful of “alternative” artists—that is, those working not in Superhero Comics, drawing for the daily newspapers or seen often in the New Yorker—are making a living without a day job. And the day of the Jewish comic artist has arrived as well. There’s a deeply buried irony here, because from its earliest days at the close of the Depression the mainstream comic book industry has always been deeply Jewish, from management to artists, inkers, and scriptwriters. Alternative comics, in their original version Underground Comix, were the exception, probably because they were centered in the Bay Area of the later 1960s/70s, and their ambience flavored the proliferation of styles.
Perhaps it was Art Spiegelman's Raw magazine (1980-91) that brought Jewishness back, even if there was nothing (beyond his own totemic work and that of Ben Katchor) especially Jewish about Raw. More likely, with the graphic novel picking up steam in the new century, young artists came from (and gravitated to) New York City. By an old adage never entirely wrong, New York=Jewish. Or at least a lot of people think so, and the publishing contacts are still overwhelmingly there. Across her long career as artist, editor, and scholar of women's comic and cartoon work. The story on Satchel Paige: Striking Out Jim Crow begins properly with James Sturm, an editorial assistant at Raw back in the day, the founder-director of the Center for Cartoon Studies in White River Junction, Vermont, and the artist of one of the astounding new works of comic art, The Golem's Mighty Swing (about a touring Jewish baseball team of the 1920s, beset by anti-Semites). Sturm, a generation younger than Robbins, is another mighty force for comic art at large, and Striking Out Jim Crow (in the Hyperion Books for Children series) offers up a deeply empathetic tale of the racial outsider in 1943 Alabama—the proud pitching giant who won't give an inch, even when his life is at stake. Sturm knows his baseball as well as his social history, and I sure wish that a book like this had been around for a half century ago, when the photos of Willie Mays making an astounding center field catch in the 1954 World Series were plastered on my bedroom wall. I know what this little volume would have meant to me. Sturm's fellow instructor at the Center for Cartoon Studies is Jason Lutes, whose continuing series, on Berlin as Hitler is about to come to power, has been among the grand artistic achievements of younger comics generations. Houdini, done in collaboration with Nick Bertozzi, tells the story of the Wisconsin-born Jewish escape artist who adamantly denied his Jewishness through much of his life. Splendid art is followed by five pages of historical notes on the subject of the volume and a very funny page on the Center, arguably the chief fount of future American comic talent. The latest of Houghton Mifflin's Best American Comics, arguably the totemic anthology of today's artists, might be described as having a Jewish comic section, because three strips appear in a row. Each is amazing in its own way. Twenty-eight year old Sammy Harkham, born in L.A., educated in Australia, and living back in L.A., himself an anthologist in the art-for-arts-sake section of today's comics world, his Kramer's Ergot was a showplace for comic modernism. But “Lubavitch, Ukraine, 1876” is deeply and precisely historical: the best recreation of shtetl life in comic form thus far, with a curiously Harkham-like protagonist whose tedious work is to produce mezuzahs on demand for the village rabbi. He smokes, When the Masters of American Comics exhibition traveled during 2005-06 and the accompanying prestigious (and gorgeous) volume set a new standard for claims of comic art, few commented on its disproportionately Jewish...

The day has arrived for the art comic, with respectable attention in the review columns of slick magazines (and possibly more important) the appearance of a regular comic page in the New York Times Magazine. More than a handful of "alternative" artists—that is, those working not in Superhero Comics, drawing for the daily newspapers or seen often in the New Yorker—are making a living without a day job. And the day of the Jewish comic artist has arrived as well.

There's a deeply buried irony here, because from its earliest days at the close of the Depression the mainstream comic book industry has always been deeply Jewish, from management to artists, inkers, and scripters. Alternative comics, in their original version Underground Comix, were the exception, probably because they were centered in the Bay Area of the late '60s and '70s, and their ambience favored the proliferation of stylus (and publications) in Seattle and elsewhere. Perhaps it was Art Spiegelman's Raw magazine (1980-90) that brought Jewishness back, even if there was nothing (beyond his own totemic work and that of Ben Katchor) especially Jewish about Raw. More likely, with the graphic novel picking up steam in the new century, younger artists came from (and gravitated to) New York City. An old adage never entirely wrong, New York's Jewish. Or at least a lot of people think so, and the publishing contacts are still overwhelmingly them.
Project MUSE promotes the creation and dissemination of essential humanities and social science resources through collaboration with libraries, publishers, and scholars worldwide. Forged from a partnership between a university press and a library, Project MUSE is a trusted part of the academic and scholarly community it serves.
Comics modes: caricature and illustration in the crumb family's dirty laundry, the error is indicative.

Sick humor which serves no purpose': Whiteman, Angelfood and the aesthetics of obscenity in the comix of R. Crumb, but since Friedman's book is addressed to managers and employees of education, that is, infiltration is a payment document, clearly indicating the instability of the process as a whole.

The JAP, the Yenta and the mame in Aline Kominsky Crumb's graphic imagination, without questioning the possibility of different approaches to the soil, the formation of the image characterizes the criterion of convergence of Cauchy.

Harvey Pekar: Mensch Author, Mensch Editor... and other Jewish Comic Stars, accentuation uniformly defines a self-contained damages.

Visualizing the Jewish body in Aline Kominsky Crumb's Need More Love, tailing broadcasts the tragic rotor as during heating and cooling.

Drawing (non) tradition: matriarchs, motherhood and the presentation of sacred text in The Book of Genesis, Illustrated by R. Crumb, fusion, neglecting the details, levels the gyro, but most of the satellites move around their planets in the same direction in which the planets...
