The history of miniature books.

The miniature book as a separate class of book to be collected...was not recognized until the last half of the 19th century when the Empress Eugenie, wife of Napoleon III, owned a collection of miniature books, reported to have contained between 1800 and 2000 volumes. Thus the documented history of collectors and collections of miniature books really covers less than a hundred years. However, references to individual miniature books have been found during all periods of recorded history.
