Raising Twins

This is a blog covering the journey of raising my two twin daughters in India, and I do hope it is of some help to expectant mother of twins!! Cheers!!

Beginning dental care early is important for your child’s health and to keep teeth healthy for a lifetime. Healthy baby teeth help children eat and speak clearly. Passing on good oral habits to your child is one of the most important health lessons you can teach them. This means helping him or her brush twice a day, showing the proper way to floss, limiting between-meal snacks and seeing your dentist regularly. Continue reading
Amigurumi (Crocheted or knitted stuffed toy) is a Japanese art of knitting or crocheting small, usually cute stuffed animals and anthropomorphic creatures. The word is a portmanteau of the Japanese words ami, meaning crocheted or knitted, and nuigurumi, meaning stuffed doll. What got me hooked to this art? My Kid’s love for books and story-telling! My twin daughters are not much of stuffed toy fans, but some of their favorite characters are sometimes not available or marketed commercially. In that case the only option left is to ‘make’ toys, hence I found amigurumi as a fun way to gift them with cute toys. Continue reading
My twins are great fans of this series and love to have a pretend play as Peppa and George at home. Peppa Pig is a lovable cheeky little piggy who lives with her little brother George, Mummy Pig, and Daddy Pig. Their favorite things include playing games,
dressing up, and jumping in muddy puddles. Continue reading

DIY Activity 9: ’Travel Activity Kit’ for toddlers

JULY 14, 2016

Author: Gauri Kshirsagar
As it is, a trip requires a lot of planning, so additionally travelling with a toddler requires that the toddler doesn’t get bored and has lots many things to occupy his/her time. Guess what? It doesn’t have to be painful. A little planning and prep can go a long way in making the journey as enjoyable for your little one as the destination. Providing Screen-Free alternatives for kids is one thing that I love to do, and while we totally bust out the phone/tablet for a movie on a long flight or road trip, I like to have lots of other technology-free ways to entertain the kiddos. The following is a simple collection of cost efficient trinkets which I usually collect for my 3 year old twins. Continue reading

GAMES WHILE TRAVELLING  HOW TO MANAGE KIDS WHILE TRAVELLING  TRAVEL ACTIVITY KIT
Many parents of newborns ask me if ‘Grip water’ should be given to new born babies, as it is usually recommended by family and friends. WHO recommends exclusive breastfeeding to babies till the age of 6 months. The beliefs and customs of people have a greater impact on the child rearing practices pushing the aforementioned guidelines to the back seat. One such irrational practice is the use of gripe water for infants on a routine basis and for colic. Anything (including gripe water) other than breast milk administered to a baby during the first six months may increase the risk of introducing bacteria, causing allergies and irritating the baby’s intestines. Gripe water just like any other prelacteal given soon after birth may cause delay in establishment of breastfeeding and reduce breast milk supply. Continue reading
What is infantile colic?

Colic is a common, but uncomfortable condition that some babies experience during the first 3 months of life. The baby cries hard and seems to be in great pain, as if he/she has a severe stomach-ache Continue reading
Your children are not your children.

They are the sons and daughters of Life’s longing for itself.

They come through you but not from you,

And though they are with you, yet they belong not to you. Continue reading
