Globalised Ireland, or, contemporary transformations of national identity.

**Abstract**

The influential US magazine Foreign Policy issued a 'Globalization Index' in 2001, which found the Republic of Ireland to be at the top of the list. The indicators used to construct the index included information technology, finance, trade, travel, 'politics' and personal communications.
the degree of global integration. We learn that 'Ireland's strong pro-business policies' more precisely the Irish market) 'a hugely attractive location for foreign investors'.
