Abstract: Study of the paintings and frescoes by Fra Angelico and the history of conventions in Tuscany, especially Sienese, and examines his own Dominican altarpieces before 1440 and the S. Marco altarpiece. Studies the recently restored frescoes at S. Marco and their iconography, identifying those outside the cells as a cohesive group of related though discrete parts, and relating those in the cells to the three groups—novices, clerics, lay brothers—that occupied the three parts.
