Expansion and fragmentation: internationalization, political change and the transformation of the nation-state.
Is the end of the nation-state approaching, now that the international economy takes less and less notice of acquired so much political power? What does national autonomy mean when governments delegate any nu to political change, and the position of the nation-state appears to be undergoing a radical process of erosion of the state will not be lost. The analyses show that both expansion and fragmentation of political power are state is delegating authority and that internationalization is limiting autonomy, the state is also finding new internationally, to preserve and even to strengthen its power and autonomy. Contrary to widely held assum prove tenable.
