Title: Color Atlas and Synopsis of Pediatric Dermatology; Second Edition.
Authors: Kane, Kay Shou-Mei
Lio, Peter A.
Stratigos, Alexander J.
Joh, Richard Allen
Keywords: Medicine;Pediatric dermatologic;Atlas
Issue Date: 2009
Publisher: McGraw-Hill

"The focus on quick recognition of pediatric dermatologic conditions and pediatric illnesses makes this atlas an asset in the office. The ease of reference is fantastic. This will replace the dermatology reference I currently use. 3 Stars."--Doody's Review Service

Modeled after Fitzpatrick's Color Atlas and Synopsis of Clinical Dermatology, the world’s most widely-used dermatologic reference, this point-of-care atlas provides large, detailed, full-color photographs of skin diseases in children along with the latest management and treatment recommendations. You'll find everything you need to confidently assess, diagnose, and manage diseases of the skin, hair, and nails of pediatric patients in a busy clinical environment.
