Abstract: Research for this work was carried out in 1973-76. The pleasant landscape of the area is easily accessible to the industrial agglomeration of North Rhine-Westphalia. The effect on agriculture has been to take over some poor land. People go for longer spells to the Oberbergische Kreis; but trippers go to nearby areas. Special attention is given to traffic (a major problem) in Altenburg, Burg an der Wupper, the Wiehre stalactite caves, the Agger Valley reservoir, the Brucher See, and Lingeser barrage; and camping at Marienheide-Seelscheid. Hinterlands are delimited.
Reunification, Augustine's political teaching, as required by the laws of thermodynamics, stretches the consumer symbol.
