

**U.S. and Canadian Institutions Listed by Fiscal Year (FY) 2019 Endowment Market Value
and Change* in Endowment Market Value from FY18 to FY19
(Revised)**

Before reviewing the data on the following pages, please note:

For most institutions, the endowment values listed on this table are based on the fiscal years ending June 30, 2018 (for FY18) and June 30, 2019 (for FY19).

*The change in market values listed for the participating institutions **DOES NOT represent the investment rate of return for the endowments' investments.** Rather, the change in the market value of an endowment from FY18 to FY19 reflects the net impact of:

- 1) withdrawals to fund institutional operations and capital expenses;
- 2) the payment of endowment management and investment fees;
- 3) additions from donor gifts and other contributions; and
- 4) investment gains or losses.

The market values also include the estimated valuations of real estate and other “illiquid” assets, which may have large increases or decreases in value during a relatively short period of time. In addition, transfers to the endowment from other institutional budget accounts, and changes in foreign currency exchange rates for non-U.S. investments, may account for large changes in endowment market values.

These factors suggest that any large increases or decreases in endowments over the past year may be exaggerated. **As such, large percentage changes should be interpreted very cautiously.**

U.S. and Canadian Institutions Listed by Fiscal Year 2019 Market Value of Endowment Assets and Change* in Endowment Market Value from FY18 to FY19

***Note:** The change in market value does NOT represent the rate of return for the institution's investments. Rather, the change in the market value of an endowment from FY18 to FY19 reflects the net impact of:

- 1) withdrawals to fund institutional operations and capital expenses;
- 2) the payment of endowment management and investment fees;
- 3) additions from donor gifts and other contributions; and
- 4) investment gains or losses.
